HK Electric achieved brilliant results again and scored two prestigious Gold awards at the 2009 Hong Kong Occupational Safety and Health (OSH) Award Forum, a leading annual safety promotion event in Hong Kong, on 9 October 2009. This is the sixth consecutive year HK Electric won Gold Award in this annual territory-wide safety promotion event. This annual safety promotional event was jointly organized by the Occupational Safety & Health Council, the Labour Department and eleven other prestigious local organizations. This year, the Forum was officiated by Mr. Matthew Cheung Kin Chung, GBS, JP, Secretary for Labour and Welfare. Among the 34 finalists short-listed from a record high of over 300 entries from 187 local utilities and reputable organizations, two were from HK Electric. The two papers were “Safety Management System – Caring & Strategic Approach in Fostering Safety Culture in HK Electric” from the Transmission and Distribution Division and “Social and Environmental Report --- Our Way to a Greener Future” from the Corporate Development Division and they won the Gold Awards in the “Safety Management System Award – Others” and “OSH Annual Report Award” respectively. The paper of safety management system was presented in the form of drama and was well-received in the award presentation ceremony. The drama demonstrated that HK Electric’s safety management system had adopted a caring and strategic approach in enhancing site safety. With the pro-active effort and participation of employees and contractors, the safety culture has been effectively fostered and site safety has also been further enhanced.
